Subject: update on the 2010 Integrated Report
<http://www.deq.state.or.us/wq/assessment/2010Report.htm>

All,

As noted in the last LSAC meeting, DEQ plans to provide regular updates to the LSAC on the 2010 Integrated Report and DEQ's 303(d) list of impaired water bodies, as well as EPA's proposed additions to the 303(d) list for Oregon until that process is finalized. In the interest of time for the next meeting (May 16), we are providing an update via the information posted on the DEQ Water Quality Assessment website: <http://www.deq.state.or.us/wq/assessment/2010Report.htm>

To see the comments that DEQ provided on the proposed EPA additions to the 303(d) list, scroll down to the section titled 2010 Integrated Report.

MidCoast stakeholders also asked questions about the Methodology and "decision rules" associated with the 303(d) listing process; the Methodology for Oregon's 2010 Integrated Report is also found in this section of the website.

We will address any questions to the extent possible.

Regards,

R. David Waltz
